Global growth of aquaculture

Aqua-Spark strives to move the
aquaculture industry towards
healthy, sustainable, affordable
production with comparable
financial returns

STRATEG
Y

building an **ecosystem**
across the value chain
60 - 80 COMPANIES

ACROSS SPECIES

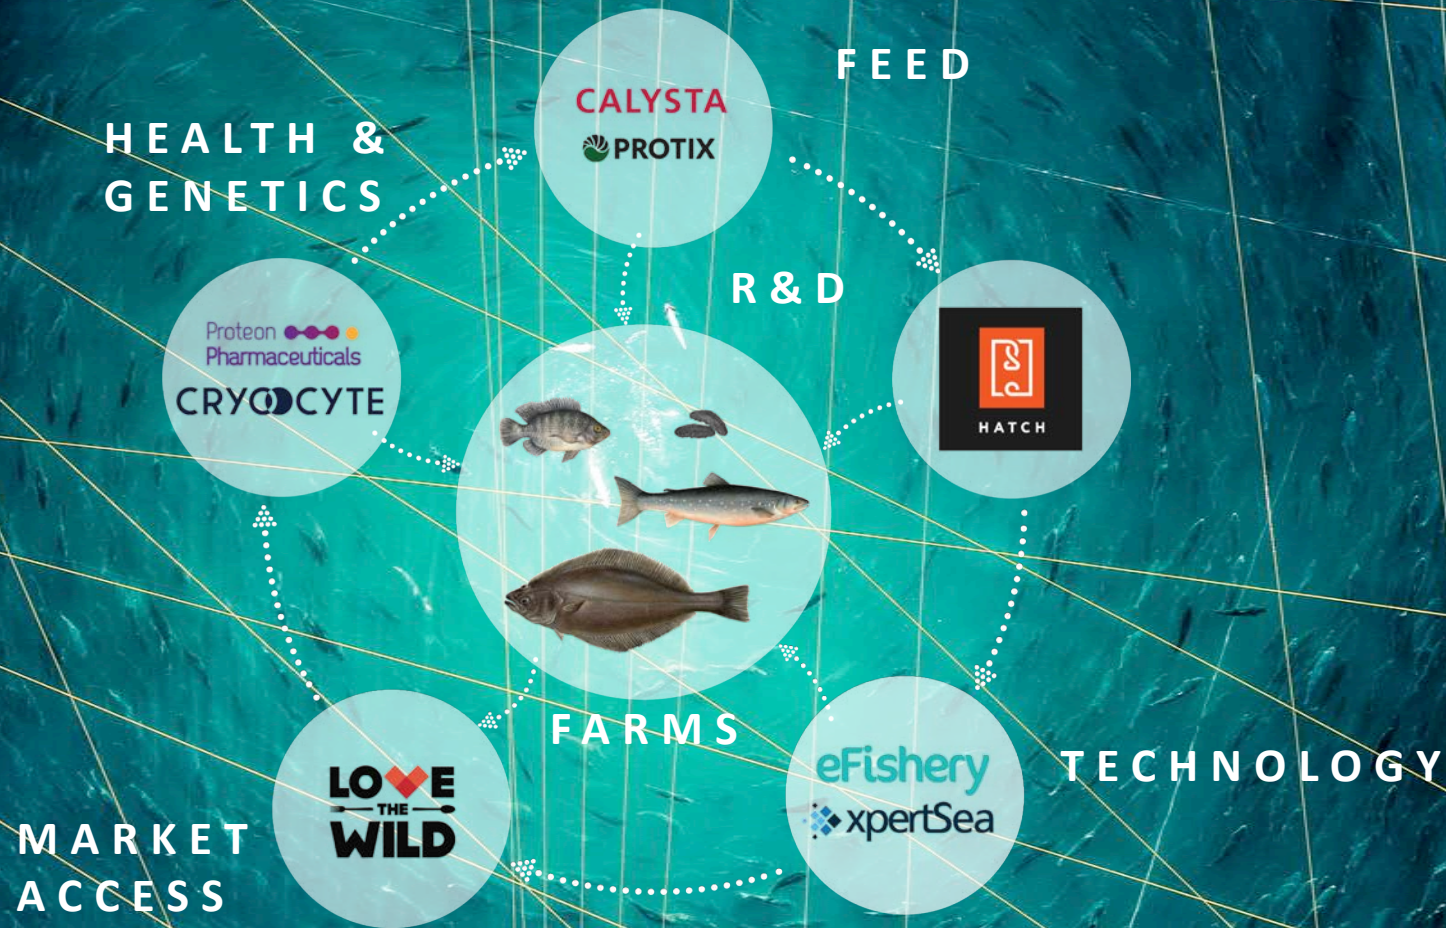

ACROSS GEOGRAPHIES

The background image shows a calm body of water, likely a bay or lake, with two small wooden boats. In the foreground, a person wearing a traditional conical hat is in a boat, partially visible. In the middle ground, another person is in a smaller boat, possibly rowing. The background is dominated by large, steep limestone karsts covered in lush green vegetation. The sky is overcast. A white rectangular box with a thin border is superimposed over the center of the image, containing the text.

**We try to bring as much added
value as possible, for everyone
in the ecosystem**

Global aquaculture production
needs **to triple by 2050**

**Join the blue revolution and the
future of food production!**
