# Sunil Kadri

CEO  
AQUAINNOVATION

Sunil is the company director working mostly in international business development, introducing new technologies to the intensive aquaculture industry, including demand feeding systems (Aquasmart/AKVAsmart); biotechnology (MariCal/Europharma); and systems for providing fish with exercise (OptoSwim). He has also had a long-term interest in tropical aquaculture development and is pursuing potential opportunities in that segment, particularly in relation to novel technologies.
